

Lesson 12

Today in Class

Today Mr. Scott Joplin showed us how to use all five fingers on our left hand! Our thumb lies on its side on "Middle C" and the rest of the fingers stand on their tippy toes on the neighbor keys. Remember to check for your ant tunnel! Just like the right hand! Each finger gets its own special key. Playing notes with one finger at a time is very tricky with the left hand.

This Week at Home

- Review the lesson with Scott Joplin. What is the name of the music we heard? Mr. Scott Joplin always tries to give his songs fun names.
- Miss Melody has more interesting things to tell you about Mr. Handel this week. Who were his friends?
- In the Games Room see if you can play all the games this week!
- Did you have fun with the cave children swinging on the vine last week? Try it again this week with your adult and see if you can both help them cross the river without falling in!
- Maybe this week you could play a different game each day!
